

## 100,000 Gallons More Water For Abbotsford Soon

**WARE CREEK SPRING WATER TO BE PUMPED WITHIN TWO WEEKS**

One hundred thousand gallons per day additional water supply will be turned into the mains of the Abbotsford domestic water system within two weeks, Joseph Gilmour, chairman of the Board of Commissioners stated prior to his departure at the weekend for a two weeks' trip to the Prairies. Next year an equal addition to the supply will be made but this first 100,000 gallons, Mr. Gilmour said will offset the October-November shortage experienced annually in the past. It will also be of material assistance in the event of a fire both in increased supply and pressure.

To provide this additional supply of water the Board has secured rights to two spring water sources on branches of Ware Creek at the western edge of town. Some 2700 feet of wood pipe, bur-lap-wrapped and tarred for protection, is being laid in the creek. Six-inch pipes lead from the two springs to an 8-inch main. From this a pump will force the water through a 4-inch main to Mc-Phee's corner where it enters the 2-inch main on Hazel Street. One of the pumps already owned by the town is being utilized in the new system.

Next year it is proposed to complete the present program by erecting another high level tank somewhere on the hill at the northwest corner of the townsite, similar in size to that on the hill-top near the east boundary. This will permit the second 100,000-gallon addition to the local supply and increase the pressure necessary to assure continuous supply on the higher levels in dry periods and facilitate the work of the fire brigade in times of fire.

There was an abundance of flowers, fruit and vegetables decorating the church, and these were later donated to the M.S.A. Hospital.

## HIT-AND-RUN DRIVER

A horse, reported by police to belong to J. W. Rempel, was apparently struck by a motor vehicle on the highway three miles west of Abbotsford during Monday night and had to be destroyed Tuesday morning. Police state the driver failed to report the incident and arrange to have the badly injured animal put out of its misery. Broken glass on the highway indicated the car sustained a smashed headlight.

## Red Cross Organizing Rapidly

**MASONIC HALL WILL BE HEADQUARTERS OF M.S.A. BRANCH**

Donations to M.S.A. Branch of the Canadian Red Cross Society are already being received, L. Caldecott, treasurer, reported at an executive meeting held at the home of Mrs. R. Gilmour on Tuesday afternoon.

Mrs. J. M. Rowley and Mrs. O. H. Heywood who had been appointed a committee to seek quarters suitable as a workroom and storeroom, reported acceptance of the use of the lower floor of the Masonic Hall which had been offered rent free to the branch.

The committee consisting of Rev. F. S. Henderson, president; Miss Beth Andrews, secretary; and Mrs. Heywood which visited Vancouver H.Q. with a view to obtaining instructions, material lists etc. were advised that affairs were still in process of organization. Samples of various articles required to be produced by the Red Cross have been received at the provincial headquarters and are in process of being duplicated to permit samples being sent to all branches. In turn the branches will duplicate the samples and provide copies to the various units in their areas.

Knitting instructions, however, were obtained and will be published in next week's issue of THE NEWS.

It was requested that persons desiring to enrol in the Home Nursing classes leave their names at the Health Unit Office in Abbotsford or forward them to Dr. J. A. Taylor, M.H.O., Abbotsford. High school girls, however, may await advice to come through their school teachers.

St. Johns Ambulance classes will also be formed under supervision of Dr. Taylor and persons interested are also requested to leave their names at the Health Office.

It was arranged that if groups desiring to organize as units of the Red Cross will communicate with the executive, speakers will be sent to address meetings and acquaint the members with the rules, regulations and all particulars required.

Bradner has organized. Poplar W.I. is meeting today and a meeting is being held at Aberdeen Hall this Thursday while a meeting is being held in the Lutheran church parlors, Matsqui, on Thursday, Oct. 12, at 3 p.m.

Weir and G. H. Loach, Justices of the Peace, in Matsqui Police Court, Mt. Lehman on Wednesday. A further remand is anticipated.

Bank protection on the Fraser river at Agassiz is to be undertaken by provincial government crews. The Dominion government's share of the cost is \$4000 on a 50-50 basis.

## ABBOTSFORD STORES OPEN WEDNESDAY

## Associated Boards of Trade Will Visit M.S.A. Area Next

Associated Boards of Trade of the Fraser Valley and the Lower Mainland will hold their next quarterly meeting in Abbotsford. This was decided at the session held Friday at Ladner when the invitation extended on behalf of Abbotsford & District Board by President J. S. Daly was accepted. About 60 delegates from member boards attended the meeting. M.S.A. representatives being Mr. Daly, Angus Campbell, H. S. Andrews.

Discussion of the valley's agricultural industry in relation to the Empire's war needs resulted in a decision to give considerable attention to agricultural problems after two resolutions on the subject had been submitted.

One, submitted by Reeve W. A. Jones of Agassiz, on behalf of the Agassiz-Harrison Board of Trade, advocated co-operation of provincial and federal departments of agriculture in providing farmers with information regarding vital crops here and abroad.

The resolution led a number of delegates including L. R. Wilson, Mission board, and E. N. Bushfield, Ladner board, to assert that the time has come to relax government measures controlling agricultural production.

Angus Campbell, Abbotsford board, and E. G. Baynes, Vancouver board, held that the government should extend the policy of price-guarantee to other commodities besides wheat. "A guaranteed price for agricultural products would double production," Campbell declared.

A special committee to consider all problems relative to production and transportation was appointed.

Submitted by the South Burnaby board, a resolution objecting to imposition by the Provincial Government of any further tax on lands or improvements to augment the allegedly depleted teachers' pensions fund was carried unanimously.

BILL WHITTAKER (above) EDDIE KELLEY (left)

Baseball fans in the M.S.A. Area are making elaborate arrangements to assure attendance at the Dominion Championships series commencing this week between Royal City Adanacs, western champions, and St. Catherine's, Ontario, 1938 Canadian champions. The first game is scheduled for Friday, Oct. 6, in Vancouver Forum and the second and third games are in New Westminster on Oct. 9 and 11, at 8:30 p.m. at Queens Park. In the pictures of the visiting St. Catherine's stalwarts above, Bill Whittaker, 190 pounds, is rated Canada's best goal keeper in 1938; and Eddy Kelly, 160 pounds, is the Rover of the team. The News is advised a block of seats has been set aside for Fraser Valley fans, and tickets can be obtained by sending the necessary to Lacrosse Sales, City Market Bldg., New Westminster.

## 1765 PUPILS ENROLLED IN M.S.A. SCHOOLS

Enrolment in the sixteen schools embraced in the M.S.A. Educational Area aggregated 1765 during September, the first month of the fall term, according to compilation of returns received by A. S. Towell, director of education. It is expected this number will be increased during October as enrolment in some schools of the Area was adversely affected by the late harvesting operations this season. Total enrolment in the schools at the end of the 1938-39 term was about 1800.

## To Buy Truck To Service 16 Schools

**TO ACQUIRE TRUCK, RECAP BUS TIRES, SELL OLD SCHOOL**

It was decided at the regular meeting of the Advisory Board and A. S. Towell, director of education, to purchase a used panel delivery as a service truck in connection with the M.S.A. Area Schools. It will be used in the transportation of supplies, desks, materials for repairs etc. between the 16 schools and will be driven by Percy Jones, school serviceman.

The coupe used jointly in the past by the director and serviceman but found unsuited for the dual duties imposed on it, will be traded in and a coach model obtained for the use of Mr. Towell. The latter type of car, it is believed by the board, will be of greater convenience and service. Transportation for director is also frequently essential at a time when it is also necessary for service work requiring moving of materials or supplies to be done at schools in another part of the Area.

It was also decided that instead of purchasing new tires for the school busses, some 18 tires with worn treads will be recapped. This was reported by Director Towell as being done in other school districts with satisfaction and substantial saving.

The bid of G. C. Curry of Matsqui for the old school property and partially destroyed building in Matsqui village, recently advertised for sale, was accepted.

Arrangements were made to cancel a large number of small policies covering the fire insurance risk on the schools of the Area and replace them with three "blanket" policies in a manner to equalize the annual total of payments. Bids had been called but resulted in no change being made in the agency.

## COLOR FILMS TO BE SHOWN AT P-R-C OPENING THURSDAY

Two other interesting films are also on the program. One shows the visit of Their Majesties to Hastings Park, Vancouver, last summer and the Pro Rec display given on that occasion.

The third film shows Pro Rec summer activities, archery, cricket, tennis, swimming, track and field sports.

## Last Rites For Douglas Willan This Thursday

**WELL-KNOWN MERCHANT AND MASON SUCCUMBS TO LENGTHY ILLNESS**

Friends throughout the Fraser Valley and Vancouver were grieved on Tuesday afternoon to learn that the four-months long fight of Douglas Willan, Abbotsford hardware merchant, had terminated in his sudden passing at his home in Abbotsford. He had been home just a month after three months spent in M.S.A. General Hospital and only on Monday evening had shown much improvement. This was followed, however, by a hemorrhage resulting in his death the following day.

Funeral services will be held under Masonic auspices this Thursday at 1 p.m. from Henderson's Funeral Home, Abbotsford, to the Masonic Cemetery, Burnaby. Members of Abbotsford Lodge No. 70 will assemble at the Masonic Hall at 12 noon to participate in the rites. The graveside service will be conducted by Grandview Lodge, mother lodge of the deceased. Places of business in Abbotsford will close between 1 and 2 p.m.

Douglas Willan was born in Benthams, Yorkshire, England, on Jan. 30, 1897 and came to Vancouver in 1911. After finishing his schooling he joined the staff of the Vancouver firm of Wood, Valance and Legget, remaining with Marshall-Wells Ltd. when the latter absorbed the pioneer concern. Mr. Willan became well known throughout the Fraser Valley as a traveller for Marshall-Wells and about eight years ago chose Abbotsford as his home when he decided to enter the retail field for himself, acquiring the business of W. H. Hudson.

Immediate Past Master of the local Masonic lodge, Mr. Willan was an ardent worker in behalf of the Order. He was also a member of the board of M.S.A. General Hospital and, prior to his illness, a member of the committee of St. Matthew's Anglican church.

Mr. Willan is survived by his wife (the former Vera Grantham of Vancouver), a small daughter, Audrey; his mother, Mrs. C. J. Willan, and one brother, Henry Willan, residing in Vancouver, and also by four sisters, Mrs. J. Daniels, Vancouver; Mrs. Arthur Dandridge, Victoria; Mrs. S. H. Rummung, Nanose Bay, V.I., and Mrs. A. Anderson in England.

A coroner's jury investigating the death of Joseph Edward McIntosh, 17, of Dollarton in a motorcycle accident near Bridal Veil Falls, east of Rosedale, Saturday night, held a session in the M.S.A. Hospital on Tuesday afternoon. This was done to secure evidence of McIntosh's companion, Arthur James McBreen of Cheam View, who was seriously injured in the accident and brought to the M.S.A. Hospital in Henderson's ambulance when Chilliwack Hospital was too full to admit him Saturday night. McBreen sustained a broken pelvis, severe bruises on his back and hips and an injury to the left leg.

**Everyday Is Thanksgiving Day**

(From the Christian Science Sentinel)

Again the Thanksgiving season approaches, bringing to humanity many joyous experiences. Family ties are renewed, loved ones are welcomed home, and friends gather together for happy times.

It is fitting and right that joy and happiness should find a place in human experience, for better human conditions point upward to the real—to those spiritual and eternal facts of being for which mankind is ever reaching out. We rejoice, therefore, in the good cheer we see manifested at Thanksgiving time.

To the students of Christian Science every day is a Thanksgiving Day. Gratitude is a spiritual quality of thought, to be cultivated and expressed by each and every one who is learning to discover God's kingdom, here and now. If one would be truly happy, gratitude must be uppermost in his thoughts at all times. For the boundless good that we are constantly receiving, the marvelous unfolding of spiritual truth that comes through the study of Christian Science, our hearts overflow with praise and thanksgiving to the Giver of all good.

But perhaps, as this holiday season approaches, one may be tempted to believe that he has nothing for which to be grateful. Seeming trials may, for the moment, have dimmed his clear perception of the ever-present Christ, Truth, and material sense may suggest that Love's care and bounty are lacking in his experience. Let this one take courage and not despair, for he will find the many beautiful promises in the Scriptures fulfilled if he continues in the Word, and gains the understanding which Christian Science brings to those who seek the true out of human difficulties. Christian Science refutes the insidious suggestions of the so-called mortal mind, and brings indubitable proof of Love's nearness, and tenderness for all His creation. It is our God-given privilege and sacred duty, as students of this Science, constantly to expect and receive the good that is ours by divine inheritance. As we turn away from sense testimony and gain a better understanding of God, our consciousness is filled with the sunlight of Truth, which dispels the illusions of error.

There is always something for which to be grateful: a kind word spoken, a loving handclasp, or a friend coming to us in a seemingly dark hour. We should rejoice in the abundant proof of God's power which we have witnessed in the experience of others. We can recall, too, many beautiful glimpses of reality which have helped us to rise in thought when faith and courage have seemed at a low ebb. At such times it is well for us to remember the words of our beloved Way-shower, Christ Jesus, "Blessed are they that mourn: for they shall be comforted."

From every untoward condition a spiritual lesson may be learned. It is our sacred privilege to look for blessings and to let these blessings be manifested in our experience. . . . May we, through steadfast reliance on Truth, be ever mindful to choose aright! Thus shall we glorify God, and prove our gratitude for the abundance of good we are receiving. Then, in the words of the Psalmist, we shall say each day, "This is the day which the Lord hath made; we will rejoice and be glad in it."

*"This is the day the Lord hath made;  
Be glad, give thanks, rejoice;  
Stand in His presence, unafraid,  
In praise lift up your voice.  
All perfect gifts are from above,  
And all our blessings show  
The amplitude of God's dear love  
Which every heart may know."*

**LETTERS TO THE EDITOR**

The A. S. & M. News invites correspondence of a public nature, but does not hold itself, the Editor or Staff in any way responsible for the opinions expressed. No letter to the Editor will be considered for insertion unless the name and address of the writer is provided the Editor. Brief communications are more likely to be considered for publication.

Editor, A. S. &amp; M. News.

Dear Sir:

Your editorial comment on the question of rates of pay for soldiers and munition workers raises an interesting point, which, if pursued, to its logical conclusion, will obtain a very wide range of support from patriotic and thinking citizens. One would hope that such a suggestion will not end in idle talk. Veterans have not infrequently been accused of being "burned up" about questions that are not generally considered orthodox, and it is gratifying to find considered endorsement of at least one that is accepted as sound.

Obviously no fair-minded and patriotic citizen would restrict regimentation of a living wage for just one class of worker whose sphere is to serve their country at home rather than in the firing line. The Dominion Government has indeed already designated various classes of vocational pursuits which it wishes to avoid disrupting for military purposes. I take it that the argument of the Chilliwack veteran, which you endorse, would be that no worker should reap an unduly high wartime reward while the soldier is risking his life fighting bloody and brutal Nazism.

Veterans who have consistently advocated conscription of wealth as well as manpower in the time of war, will welcome the support of a progressive press, as indicated in The News and The Progress editorial columns. If the suggestion is motivated by more than the time-honored custom of baiting the man in overalls, you should readily be able to test the genuineness of this patriotic zeal when the obvious question is asked:

ed: Shall we regiment the wages of the soldier, the engineer, the accountant, the munition worker, and forget about the wages of the "captains" of industry and finance, of the president of the munitions plant for example, who may, with some logic, be entitled to general's or admiral's pay, but not in wartime, to the incomes which they are wont to receive out of all proportion to their contribution to the national effort? And what of the citizen whose wartime effort is limited to coupon-clipping? Shall his or her income be regimented on the basis of the camp follower? Like the munition worker, they too are privileged to serve their country at home "in comparative safety and comfort".

If the progressive newspapers and other supporters of equalization of wartime burden and effort can succeed in this war, in diverting some of the emotional, martial zeal into channels of cold reason and toward a genuinely cooperative spirit in the whole nation, then a certain lasting good may be accomplished that failed to develop in the last world war, for it is not inconceivable that a policy which was considered right and workable in wartime, could be just in peacetime when nations, instead of devoting their full energies to cutting each other's throats, go about the business of getting along with each other. There are some who think that peacetime is as important as wartime.

Please let me congratulate you on the stand you appear to have taken, and to express the hope that you will have the opportunity to support action as well as casual remarks. The question is one which the people of Canada are perfectly capable of resolving in a democratic and equitable way when they put their minds to it.

**FARM and RANCH TOPICS****Utilizes New Sprinkler for Fertilizing**

Despite a persistent drizzle, forty farmers and others connected with the farming business attended the irrigation field day at Mr. Mitchell's farm at Chilliwack. Mr. Mitchell's 20 acre farm is a model of productivity, his pastures are as green and luxuriant today as they were last spring.

The twenty sprinklers are left in one position for eight hours, then moved to a new setting in accordance with accepted practice in districts where farmers have had several years experience in sprinkler irrigation. A five horsepower motor and two-inch centrifugal pump supply water from Hope Slough.

Most Fraser Valley farmers are familiar with the method of sprinkler irrigation judging by the amount of interest displayed in this modern development, but Mr. Mitchell, with typical farmer ingenuity has "gone one better" and is using his equipment as a means of distributing fertilizer as well as water. A well point has been welded upside down in the bottom of a steel oil drum to serve as a screen. A three quarter inch pipe from the outlet side of the pump enters the drum about six inches from the bottom and supplies a stream of water with a swirling motion. Another pipe leads from the well point back to the intake side of the pump. Mixed fertilizer or lime are placed in the barrel and sufficient water is "by-passed" through the attachment to dissolve the material and distribute it through the sprinklers. Only an hour is required to dissolve a hundred pounds of fertilizer, leaving ample time to wash the equipment thoroughly before changing the setting.

Such a system of applying inorganic fertilizer means that the total plant food is carried to the roots in the most readily available form, already dissolved. Benefit from the application of this plant food will be obtained more quickly than if rain or soil moisture must be depended upon to create a solution useful to growing grass. Perfect uniformity of distribution, no chunks difficult to dissolve and no losses by wind, plus a lot less work than usual are the dividends paid by this piece of ingenuity.

**FAIR PAYS WAY**

A preliminary financial estimate of Chilliwack's fair indicates that while attendance fell from 5000 in 1938 to 4000, the fair board will be able to meet all current expenses, according to E. H. Barton, secretary-manager.

Says Purity Maid, "It has what it takes. It's always successful with pastry and cakes."

"And Purity Flour stands out far ahead. As the best of all flours for biscuits and bread."

#### PURITY MAID SAYS:

"Men are great ones for telling their wives about the wonderful pies their mothers used to make, or the wonderful cakes, or the beautiful bread. My mother used to make beautiful bread, pies and cakes, too. But I make just as good pastry and cakes as my mother used to, and far better bread. Because I use Purity Flour, made from select western grown wheat. It is a stronger flour. It produces more bread and better bread. And it's just as good for cakes and pastry. Try it."

#### PRAISE M.S.A. WOMEN'S WORK

Miss Francis Hay

of the B.C. Electric Home Service Department, Vancouver who  
judged Division L, Home Cooking, exhibits in the Central Fraser  
Valley Fair at Abbotsford, and like Mrs. Thos. Robertson of  
Chilliwack who judged the needlework, were highly complimentary  
in their comments regarding both quantity and quality of  
exhibits by women of the M.S.A. Area.

Miss Jean Lind

#### NEEDLEWORK

Transfer of the M.S.A. School  
Garden Contest exhibits to separate  
accommodation in a large  
tent provided additional space for  
the display of women's work,  
needlework and cooking, and the  
fine floral exhibit at the Central  
Fraser Valley Fair at Abbotsford.  
Mrs. Thos. Robertson of Chilliwack  
spoke highly of the numerous  
entries and fine quality of  
the exhibits in needlework and  
similar praise was accorded the  
entries in the cooking division by  
the judges, Miss Francis Hay and  
Miss Jean Lind of the Home  
Service Dept. of the B.C.E.R.,  
Vancouver. In charge of the former  
class were Mrs. R. Gilmore,  
Mrs. C. Weir and Mrs. K. McKay,  
while the promotion and arrangements  
for the cooking were in the hands of  
Mrs. J. T. Hunter, Mrs. Wm. Fraser  
and Mrs. J. Wilson.

**THE LIBRARY CORNER**

**"The Grapes of Wrath"**  
A lot of people are unduly excited about "Grapes of Wrath", and are becoming very impatient about their requests for this book, of which the library has only four copies. There is not much likelihood that it will attain such popularity as to necessitate re-purchase to anything like the extent of "Gone with the Wind", of which the library now has twenty-nine copies.

We say "unduly excited", not in disparagement of the book itself, but because half the readers who request it will be disappointed. Many will refuse to read it and a number will insist that it is not fit for library shelves. Readers take it at their own risk.

The book is an epic account of the small farmers and share-croppers of the southwestern states of the Union, driven out of their homes and moving westward with their families and a few household goods piled in a broken-down car. "The book is profane and sometimes shocking in its detail. So is that regiment of America which Steinbeck describes with such truth. This is no book for the timid."

**"Factories in the Field"**  
Those who have read "Grapes of Wrath" and those who are waiting for it, will be particularly interested in another book, "Factories in the Field", which gives the factual material on which the novel is based. It tells the story of land holding in California, from the days of the Spanish grandee to the present time when year-round truck crops are grown on a factory basis and agricultural workers follow harvests from one corner of the state to the other, living in tumbledown shacks and enjoying the mythical prosperity and salubrious climate.

Sales of food stores in Canada, both chain and independent, are estimated at \$367,000,000 for the year 1938.

White-Boley

A quiet wedding was solemnized at 7:30 p.m. Monday at the United Church Manse when Kathleen, eldest daughter of Mr. and Mrs. Howard M. Boley of Upper Sumas, became the bride of Franklin W. White, son of Mrs. S. F. White, Abbotsford, and the late S. F. White. Attendants were Miss Beryl White and Mr. Sterling Parberry.

The bride wore a pretty travelling costume consisting of green dress with matching accessories and tan coat.

The young couple left immediately after the service for Seattle, whence they will travel into Eastern Washington and the Cariboo districts on an extended hunting trip. Upon their return they will make their home in Huntingdon.

Thompson-Roberts

The marriage took place in All Saints Anglican Church at Mission on Wednesday, Sept. 24, of Florence Mae, daughter of Mr. and Mrs. William Roberts of Abbotsford, to Mr. Benjamin F. Thompson of Abbotsford. The ceremony was performed by the Rev. Jeffcott of Mission.

Given in marriage by her father, the bride wore a rose lace evening gown, with rose trimmed lace hat, and a black velvet wrap with upstanding collar of ermine. She carried a bouquet of roses and carnations.

The bridesmaid, Miss Effie Roberts, sister of the bride, wore a gown of pink organza and hat to match, and carried a bouquet of gladioli and carnations. The groom was supported by Mr. Reginald Adams, while the ushers were Mr. Earl Roberts, brother of the bride, and Mr. Tom Atkins. Miss Peggy Anderson played the nuptial music. Soloists were Miss Effie Roberts and Mrs. Bernice Campbell.

At the reception which was held in the Orange Hall, Mrs. Roberts, mother of the bride, gowning in navy with accessories to match, received over 70 guests. The hall was beautifully decorated. A three-tier wedding cake and wedding bells adorned the bridal table, which was attended by Miss Madeline DesMazes, Mrs. J. Wilson, Mrs. C. Mouldy and Mrs. J. Stady presided at the urns, and serviteurs were Misses Dorothy Mouldy, Betty Johnson, Bessie Reyburn, Chris. Rolls, Phyllis McNally, Louise Bulanger and June Gilfillan.

The toast to the bride was proposed by Mr. David Campbell of Vancouver and responded to by the groom.

On leaving for their wedding tour to Trail via United States, the bride wore a pink and gold ensemble with brown accessories. On their return they will reside at Delair.

SHOWER HONORS  
MISS K. BOLEY

Honoring Miss Kathleen Boley, a miscellaneous shower was held on Monday afternoon at the home of Mrs. Les. McGarva, with Mrs. John McGarva as assisting hostess. Gifts were presented to the bride-elect in a miniature truck driven by little Andy McGarva while Miss Agnes McAdam made the presentation speech. Misses Rita McGarva and Agnes McAdam assisted the guest of honor in opening the many lovely and useful gifts. Orange and silver streamers, clusters of gladioli, and autumn flowers were used for decorations. Later delightful refreshments were served. Acting as serviteurs were Misses Mabel Watson, Agnes McAdam, Rita and Elsie McGarva.

SEND HARVEST

These will be sent by courtesy of the B.C.E.R. to the Jackson Avenue Mission in Vancouver to be distributed among needy families. Appreciation was expressed to all who contributed gifts, time and talent to the service.

Resolutions  
Adopted By  
Mennonites

The following minutes and resolutions were discussed and adopted at the meeting of Fraser Valley and Vancouver Mennonites congregations reported last week by THE NEWS as being held in South Poplar hall on Sunday, Sept. 24. They were originally presented, it will be noted, at a meeting held at Sardis on Sept. 10 and submitted to the subsequent meeting for endorsement.

Minutes of the meeting of Representatives of various Mennonite Congregations in British Columbia, held in the Mennonite church at Sardis on Sept. 10, Bishop Bahnmann opened the meeting with a song and reading of the 4th chapter of the Prophet Jeremiah, followed by a prayer.

By a majority of votes Bishop Bahnmann was elected chairman of the meeting and Rev. Harder of Yarrow, secretary.

Bishop Bahnmann told the meeting that the present critical world situation had brought to us anxious and disturbing questions. The Mennonite congregation had already discussed the situation on the previous Sunday and had accordingly written to Bishop Igoew, Bishop Bahnmann in his own interest had gone to Vancouver and had an interview at Red Cross headquarters, located at Room 54, Davies Chambers. The responsible person in charge, Mr. T. W. Tottrey, understandingly received the explanation as to the position of the Mennonites, but said that he could not say anything definite, because the matter had not been regulated yet. He expected to depart for Ottawa that same day and requested Bishop Bahnmann to meet him again at the end of the next week.

There next followed a free discussion during which the various aspects were laid clear. It so followed that no binding decisions could be reached. This would be the business of elected representatives of the congregations. A committee was appointed consisting of the Brethren N. Bahnmann, Sardis; J. Wiens, Vancouver, and J. Harder, Yarrow. This committee is to be the liaison between the General Mennonite committee of Canada, regarding the question of noncombatant military service, and the congregations. The meeting advised the individual congregations to elect Representatives for a future assembly and also that in all congregations during the next two weeks collections for the Canadian Red Cross should be taken.

Our present position be expressed in the following resolution:

1. We make it our special duty in this difficult time to earnestly pray for our Government.  
2. We as noncombatant Mennonites must not expect to watch events inactively, while young men of other religious confessions are actively serving our country. As Christian Citizens of new Land, we are ready to serve our country to the best of our abilities in the Service of Benevolence such as Red Cross Work, should a General Conscription be forthcoming. In all questions of service substituted for actual combatance, we wish to remain in accord with the other Mennonite Congregations in Canada.  
The meeting was adjourned with a prayer.

LOAN EXHIBIT OF  
WONDERFUL BEADWORK  
BY NORTHERN NATIVES

One of the unusual exhibits in the women's section of the C.F.V. Fair at Abbotsford was a loan of beadwork done by Indians of the far north. It consisted of several articles seldom seen in these parts from a collection owned by Mrs. Young, wife of Corp. C. J. Young of Abbotsford detachment of the R.C.M.P. In response to requests of a number of persons who did not see the beadwork at the fair, it is being displayed this week in THE NEWS window and includes beautifully decorated gauntlets with fur cuffs, decorated rifle case, moccasins, an outstanding piece of work in the form of a tasseled belt and an ornamented bell blanket placed on the members of a dog team on entering a native village.

WOMEN VOLUNTEERS
